al Comes Home,

BURLINGTON, N. J. June 27 .- Maggie Bandoff, the little thirteen-year-old girl who has been missing from the home of Samuel Adams near this place for several days, and for whom the entire neighborhood has been hunting high and low, came home to-day at 9 o'clock. She was almost famished, her clothes were torn from briars and underbrush, and her hands were bleeding and sore. went to Mr. Adams' house and surprised the family by walking in upon them. She was weak from hunger and exposure and could hardly drag herself along. She told a wandering, disconnected She appears to have lost her way and to have wandered about, sleeping in the woods at night among the bushes until she finally found her way back home.

GOVERNENTS, STOCKS AND BONDS.

Special to the Gazette.

New York, June 27.—To-day there was an easier feeling in stocks, notwithstanding that the bank statement is expected to be unfavorable to-morrow, and call loans run till Monday. There was no feature of special importance in the railroad situation, although Chicago specials reported that everything had been arranged for the restoration of freight rates throughout the West and Northwest. The influence of this aunouncement was fairly overcome by the continuance of the Illinois Central strike, notwithstanding reports that there would probably be an end of it to-day.

Dealings in railroad stocks were completely collapsed in interest by the renewed sensation in Chicago gas, in which transactions ran up to very large figures. While the most pronounced strength was displayed by that stock, sugar was unusually dull and transactions in the unlisted department reached the smallest figures for any till day for a long time. In the regular list Atchican, Reading, Richmond and West Point, Louisville and Nashville were most prominent, but dealings were comparatively light while were traded in over a small range. The real of the chaines were comparatively light while the most prominent of the control of the c

hauges from opening. Government bonds dull and steady.

SITUATION IN HAYTL

The People Not Satisfied with Hyppolite, and a Revolution is Only a Question of a Few Months.

Special to the Garette. of men-of-war belonging to the republic of Hayti, part of which are on the dry docks in Philadelphia, are at present without a commander, President Hyppolite's admiral having thrown up his com . mission and left the country. The gentleman who held that onerous position from a deposition of Usurper Legitime was Capt, David Compton, skipper of the American steamship Haytlen Republic, the seizure of caused a change of government in the black republic, and also the bombardment of Port-au-Prince by an American fleet under Admiral Luce. Ex-Admiral Compton arrived in town to-day from Boston, and was sailing down Lower Broadway to visit his old friend, when he was overhauled by a GAZETTE reporter. Skipper Compton stated that he had become disgusted with President Hippolyte and his so-called government. He had done what little he could to oust Legitime and put the present occupant of "Palais National the head of affairs, and was promised a remunerative position for his services. reward was that he should be

placed in charge of the Haytlen navy at a salary of \$6000 in gold. Compton to Port - au - Prince year, payable down to went about six months ago and took command of the fleet. He devoted most of his time to seeing that none of the gunboats went to the bottom. He was paid at the rate of \$6000 a year for about four months. when he was informed that the public exchequer was nearly empty and that all salaries must be reduced. gan on the pavy and admiral Compton's country by officers and crews of ocean salary was reduced to \$250 per month payable in Haytlen paper money, worth about sixty-seven cents on the dollar. The admiral rebelled, and after pleadsage of vessels between Liverpool and |ing to be put back on a footing commenare near an English port the captains and returned home. Capt. Compton again order searches to be made. This says another revolution is only a question of a few months in Havti. He says the

surate with his agreement, which was denied him, he threw up his commission people are not satisfied with President Hippolyte and that Gen. Legitime, who had returned from France, is now in Kingston, Jamaica, awaiting the signal the annoyance of having their officers from his friends in fort-au-Prince to arrested while vessels are in this port, ernment

nie Installation. Special to the Gazette.

Lampasas, Tex., June 27 .- Last night the Blue lodge of A. F. and A. Masons, and also the Royal Arch chapter, assembled in the Masonic ball for the purpose of installing officers for the ensuing sonic year. D. C. Thomas, P. M. of Saratoga lodge No. 546 installed: J. M. Crown, W. M.; H. W. Yates, S. W.; J. D. Bla kenship, J. W .; J. R. Hastings, trensurer; D. J. Morris, secretary; T. W. McKnight, S. D.; A. W. Green, J.

stewarts; H. H. Stockman, tyler, P. G. M. W. H. Nichols then proceeded to install the chapter officers as follows: T. H. Hoynie, H. P.; W. H. Browning, K., M. Y. Stokes, S.; J. M. Brown, C. H.; J. K. Lee, P. S.; W. R. Williamson, R. A. C.; H. W. Yates, 3d V.; F. J. Harris, 2d V.; W. E. Akins, 1st V.; J. R. Hastings, T.; D.J. Morris, secretary; H. H. Stockman, guard. After the installation ceremonies a grand banquet was enjoyed by the members of the fraternity and their families. The spacious hall was crowded and all seemed to enjoy themselves to their heart's content.

ROUND-UPS.

An Evident Scarcity of Cattle All Over the State-

Good Prices Predicted for the Future-Sheep Statistics of Great Britain-The Popular Southdowns-

It is evident that steer cattle are getting scarce in Texas, and it is hard to find them in any large bunches. It has been supposed for some time that South Texas was pretty well supplied with them, but late advices from there are to the effect that they are pretty well cleaned out. Jesse Presnell and Dan Lewis were in the city yesterday, en route to the Territory, where they have cattle interests, and they report that there are no steer entile to amount to anything in that part of the state. The beeves have been moving quite lively ecently, Presnell having shipped for his company 8000 since the season set Other parties have also been moving cattle quite freely, until between those shipped to the maturing pas-tures and those shipped to the markets the supply has been pretty well exhnusted.

This is not only the case in South

steers in this part of the state, and when the movement of beef cattle is over the scarcity will be still more marked. There is nothing alarming in this condition of affairs-to the contrary it is rather encouraging for those who have cattle that will make beeves next year. It used to be the case that from all quarters of the state could be heard reports of the large number of steer cattle, and they were to be found on every hill. It was that abundance that many to be rushed 80 to market, having a tendency to depress prices. No, just the reverse is the case so far as numbers are concerned, and just the reverse will be the case as to prices when next spring's markets open up. Every indication is in favor of better prices, and the cattlemen see it.

Texas, but there is a marked scarcity of

Better Times Coming. The Springer (N. M.) Stockman reads the signs of the times right and says that the steady advance in the prices of cattle means good times for the cattlemen and cattle states generally. When stock growers have money everybody is flush, for the cattlemen are proverbially liberal in their expenditures, and since the style has become popular of having comfortable, if not elegant homes on the great ranches, they put more of their money with merchants and mechanics. Several good sales have been made lately, and we have heard of \$23 being paid already for three-year-olds delivered at shipping points on the railroads here, which is equal to \$28 at Kansas City, and is about \$10 in advance of last year's sales.

Cattle Scarce in Hill County. Mr. G. G. King of Hill county was in the city yesterday in search of steer cat-NEW YORK, June 27 .- An alleged fleet the for feeders. A GAZETTE reporter met him, and during a short conversation Mr. King stated that steer cattle in his county were extremely scarce-in fact except a few small bunches in the southern portion of the county there were no steers in the county to be had. He was of the opinion that the scarcity of cattle which was evident would result in good prices in the future.

Southdown Sheep.

American breeders have been importing a great number of Southdown sheep during the past few years, and from this it may be concluded that this well known breed pever stood higher in the estimation of breeders than to-day. Probably these Importations are largely due to the fact that there has recently been a great awakening of interest among farmers of small holdings concerning sheep. The pure Southdowns are well adapted to small farms, where only a few sheep are desirable. They do not, like the Merinos, thrive so well in large flocks. They are apparently designed by nature for a moderate area and for small flocks.

Sheep in Great Britain. According to a late report, the United

Kingdom of Great Britain, with a cultivated area of 47,931, 16 acres, had, in 1889, 29,484,774 sheep or 61.5 sheep for each 100 cultivated acres. These were distributed as follows, the last column giving the number per 100 cultivated

COUNTRY.	Acres.	Sheep.	Sheep.
England	2,853,917	15,839,882 2,840,699 6,951,449	63.2 99.6 144.5
Great Britain	32, 733, 355	25,632,020	780.3
Ireland	15,066,941	8,789,629	25,2

The relative position in sheep breeding f the various parts of the united Kingom .- for instance-for the whole 61. -Ireland appears with 25.2, less than half the average. England comes next with 63.2, just over the average, and is followed by Wales with 99.6, more than 80 per cent. better than England. land then crowns the list with 144.5. being 50 per cent. more than Wales, and more than double the ratio in England and the average in the United Kingdom.

Wheat Opened Higher, Fluctuated Widely and Closed at a Decline-Coffee and Wool Markets Unchanged.

> Daily Review. OFFICE OF THE GARRIER. FORT WORTH, TEX., June 27, 1890.

Warm and clear to-day and business was very fair in all retail departments; very few people in the city from the country immediately surrounding Fort Worth. Wholesalers in allines offer no complaint; trade with them is fait, all doing a good shipping business.

The general produce and family supply markets are in fair shape for to-morrow's trade Esturday, when there is always a brisk demand, There are no especial changes in any commodity to note-prices are firm as given.

There are no especial changes in any commodity to note—prices are firm as given.

The London Produce Market's Review of a recent date says there are at length some slight signs of an improvement in the demand for sugar, but the tone of the market still remains quiet, and prices are only just steady. It is satisfactory to find, however, that deliveries continue good, and will, no doubt, keep increasing so long as prices are low. Of this there is every prospect for some months, as reports of the growing beet are favorable, and the only element likely to disturb the sugar market—the American tariff bill—is still under discussion, and likely to be so for some time. The speculative beet market has been inactive, but the quotations for new crop are no lower, and a fair business has been done with refiners at steady prices. A few transaction in low cane sugars at previous rates are also reported. Crystalized raws continue slow of sale, and only a portion of the supply offered at public auction on Tuesday was disposed of at barely steady rates. Refiners' yellow crystals have, however, been in better demand, and are in some cases 3d per hundred weight dearer. The imports of crystalized raws to London for the week ending 6th inst., amounted to 1455 ions, and for this year to 21,483 tons, against 28,087 tons in 1899.

The Havana Weekly Report says of the sugar crop: Owing to excessive rains, grinding operations have forcibly come to an end in the greater part of the producing districts, and with the only exception of the central factories Constancia and Caracas at Cleutnegos; Narcisa, Adela and San Augustin at Remedios, and a few more, not over seven or eight in different localities, that have resumed work after the rainstorm referent to in our previous issue, it may be said that the crop is over. As to the total production to be attained this year, the former estimation as to a crop equal to the previous one is still manutained, masmond has 60,000 or 40,000 bags, more or less, which is the most that plantations that keep
